

Tropical Diseases 2020: A Walk for Cure

Ali A Ghweil

South Valley University, Egypt, E-mail: alimena@yahoo.com

Tropical and Infectious Diseases are a group of mostly infectious diseases that thrive among resource-poor populations, especially in tropical and rural climates. Their transmission and entrenchment is therefore favoured by both geographical and social factors. The clinical history of tropical diseases is diverse. In some cases, severe impairments occur after years of silent infection so patients may have been unaware of the need to seek care. Specific actions and techniques in the field of public health are applied to these diseases, especially those aimed at eliminating the infectious agent or vector, thereby reducing transmission from one organism to other. Some are passed on by zoonosis or other vectors. Modern medicine needs new kinds of antibiotics and antivirals to treat drug-resistant infections.

We are glad to announce the commencement of the [3rd International Conference on Tropical and Infectious Diseases](#) on **August 13-14, 2020 at Dubai, UAE**.

Awards for Tropical Diseases 2020

Expert Level

The award is to the experts who have made outstanding contributions to advancing in Infectious Diseases. It is the most prestigious award of the conference and tagged as a Scientific Service Achievement award.

The eligibility criteria for achieving this award is that one should have a minimum of 20+ years of experience in the relative field in the public or private sector. The receiver of this award should have a dedicated fascination and should take initiative in researching the recent trends and developments towards the related subjects. You can nominate deserving of the award online.

Professional Level

The award for professional or academic research activity acquired in Infectious Diseases research field in the public or private sector for experts having research knowledge at 10+ years with most relevant accomplishments. Part-time research experience would be counted as pro-rata. It is calculated from the date when you obtained the (first) degree entitling you to embark on a doctorate (either in the country in which the degree was

obtained or in the country in which the researcher is recruited), even if a doctorate was never started or envisaged. You can nominate deserving of the award online.

Scholar Level

The conference offers a Scholar Level award for scientists, researchers, and experts having 10+ years of research experience in the field of Infectious Diseases. Our conference would like to offer the best platform to expand your network by sharing your research knowledge. Presentation includes 25-30 minutes of oral talk on the scientific research topics based on the theme of the conference along with 5 minutes panel discussions. You can nominate deserving of the award online.

Women Scientist

Our conference provides a unique platform for women scientists for presenting the latest research projects with an in-depth analysis. We cordially invite women scholars and scientists from universities/industries having 10+ years of research experience to join the forum. We are happy to encourage our women scientist participants through research awards and provide assistance for women scholars in career development and research guidance through our collaborations. Women scientists can nominate deserving of the award online.

Outstanding Speaker

This award is recognizing individuals who will present their projects, strategies, and schemes that have been implemented to improve long-term excellence in Infectious Diseases. You can nominate deserving of the award online.

Best Keynote Speaker

The award is recognized for Best Keynote speakers who will present their projects, strategies, and schemes that have been implemented to improve long-term excellence in Infectious Diseases. If you were confirmed as a keynote presenter by the Program Manager, you can nominate deserving of the award online.

Best Poster Presentation

Students' poster competition is organized at the conference, to encourage students and recent graduates to present their original research. All accepted abstracts will be presented at the poster sessions during the conference. Conference Series aims at setting a platform for all the budding scientists and researchers to present their real-time work and share their views and aspects related to the theme of the conference. You can nominate deserving of the award online.

**Outstanding Thesis**

The award is recognizing for Masters/Ph.D./Post Doctorate thesis work presentations who will exhibit their projects and thesis that have been implemented to improve long-term excellence in the field of Infectious Diseases. You can nominate deserving of the award online.
